# AM I FULL OF CRAP?

Calf scours are not inevitable. A strong prevention program is non-negotiable. Dependable scour prevention is essential for calf welfare, employee morale and business profitability. The immune system's response to vaccination is variable and unpredictable. That's why giving preformed antibodies instead of relying on a vaccine to stimulate antibody production is so important. I'm all for removing uncertainties. So yes, I stand by this product. (And no, I'm not.)

## Become a Member

### **Mission**

*Minnesota Hereford Breeders has a mission as an association to promote the Hereford breed where and whenever possible. The association unites Hereford breeders within the state by sponsoring state-wide activities, supporting youth activities, publishing a Minnesota section in Hereford America, and publishing a directory of all the current members. Our association is a promoter of Certified Hereford Beef in the state of Minnesota. The Minnesota Hereford Breeders is an active, growing group working together to keep the organization strong.*
